I went outside for the exchange of mail. I brought the mail inside ( Paul had run in before me to get a fed-x from Sandy Daigle ) . As i was bringing the mail in a flower box keyy falling off and a gentleman kept helping me put it on right. Sandy and Paul held the door for me because of the carts awkwardness. When I started unloading the cart in the mailroom the phone rang and Paul was telling me that the Pelican case was outside sitting on the sidewalk and that I had better get it. I asked him what he was talking about and he said that he wasn't kidding. I went outside and there were at least seven guys standing there and said that Paul had just taken it off the truck and set it on the sidewalk and left it there. Laura

Bond was there

**36. ~~SEPTEMBER 3, 2004~~ During a mail exchange I went back to the office to unload the mail and got a phone call from Paul Mahoney the mail clerk who had just dropped off the mail and was on his way to another mail room and told me that a Pelican Briefcase was left outside by the curb and that he put it by the door on the outside instead of bringing it to me. This was a locked briefcase and very sensitive. I Initiated contact with a supervisor Dan Moncada and Ken Haskins to let them know about it because it was a security breach and I did not want to be held accountable.**
